

USE FLAXOAP

SHERWIN-WILLIAMS Flaxoap is a pure linseed oil soap, made to clean surfaces such as floors, furniture, woodwork, windows, mirrors, railings, etc. Owing to the great cleansing properties of linseed oil, Flaxoap has a great advantage over ordinary soaps for cleaning the dirt, grease and smudge from the above mentioned surfaces and a host of others. As a handy soap for the home it has no superior. We are handling Flaxoap in this vicinity and would like to have the opportunity to place a few cans of it on the shelves of every home. No one should be without it. It is a clear, amber jelly, readily dissolved in luke warm water and used like ordinary soap suds. Its strength does not injure the most polished surface or the most tender skin. Let's talk Flaxoap to you.

Marathon Mens' Merry Meeting

If all the plans that Nigel Jackson, manager of this year's Haleiwa Marathon race, has figured on come to pass, there will be a great day on March 20 in the way of an excursion and sporting events.

There was a meeting of the committee last night, and at it the greatest enthusiasm was shown in the proposed race. C. F. Chillingworth was in the chair, and his suggestions were listened to with interest.

Chillingworth is one of the best sports in this city, and he always is willing to take a hand in helping sporting events of all sorts. Last year he was a moving spirit in the Haleiwa race and did a lot of work in connection with it; he also acted as judge at the finish of the event, and in every way was of great assistance to the promoters of the race.

The sense of the meeting last night was that another gathering of the class should be held on Tuesday next, when more of the details of the matter could be arranged. Marathon Jackson is showing great enthusiasm in regards to the race, and he has already secured promises of some prizes. A bicycle race was also suggested, and, judging from the success of the one last year, such an event should be a real drawing card. Besides, while the Marathon runners are performing their stunts along the road to Haleiwa, there will be a wait at the hotel till the men put in an appearance.

The bicycle race would fill the gap, and as there is also a prospect of a horse race, too, quite a mixed race meeting would be pulled off.

The matter of the excursion train was not gone into last night as deeply as it might have been. It was thought better to have all the details with regard to the race fixed before the train arrangements were made.

All Honolulu arose bright and early last March to get to the depot in time for the start of the Marathon race, and there is every chance of the same thing happening this year. It is to be hoped so, as the excursion alone is well worth taking, and the race is sure to be a closely and well-contested one.

Rowing Men Are All Going Strong

Rowing has taken on a remarkable spurt of new life lately, and the way the members are getting into the game is a treat to see. The oldtime rowers are going down to the boat sheds, and from them the youngsters are picking up some fine wrinkles in the art of rowing.

The Myrtles and Healanis each have a "Strawberry" crew, and the way these beginners make their barges walk through the water promises well for the future junior and senior crews of both clubs.

The actual crews which are to race against one another in the "Strawberry" class have not been picked yet, but there is no doubt that the men who are now trying out will about make the crews of their respective clubs.

Then the Myrtles and Healanis have arranged junior crews that will in time be first-class ones. At present they are green, of course, but the material is there and it only needs some good coaching to bring it out.

The Healanis will have a race on February 6 between a heavyweight and lightweight crew, and then for the big race against the Myrtles on February 20, the best men from the heavies and lights will be picked to represent the club. The Healanis are going to make a showing against the Myrtles at the next regatta, and it will be the best thing that has happened in regards to rowing for a long time past.

There will be a pair-oar race on February 29, and that event should be worth going miles to see. The program is gradually growing, and it promises to be as exciting and good as the regular annual regatta one. More interest is taken in the game now that some fresh blood has been introduced into the clubs, and the way that the crowd piles down to the Healanis boat shed on Sundays surprises even the oldtimers.

Yes, the most healthy sport in the world, and the one that exercises every muscle in the body, is once more booming as it should in Honolulu, and there is no doubt that the young men will all benefit in every way through their work at the boat sheds.

Francisco y Madero, a millionaire Mexican, opposes the reduction of taxes. The police are after him.

Schofield "Outlaws" Would Play N. G. H.

Now, there has been a great deal of talk about trying the Guards out against the Marines to see how they will show up against the combined fleet team at baseball, and the result of the talk is that the Schofield Barracks boys, out at Leliha, have decided that they are the lads to try out the N. G. H.

The following letter, which speaks for itself, came to hand this morning, and Manager Moorhead of the "Outlaws" appears to think that Sergeant Barry and his bunch should go to Leliha for a game. It is to be hoped that the Guards do go, and it would be worth a special trip to the barracks to see such a match. The letter reads thus:

Troop K, 5th U. S. Cavalry, Schofield Barracks, Honolulu, H. T., January 27, 1910.

Sporting Editor, Evening Bulletin, Honolulu, T. H.

Sir: I am forwarding you a copy of letter sent Mr. E. S. Barry, manager baseball team, National Guard of Hawaii, this date, and hope you will publish same so that it may come to Mr. Barry's notice in the event of the miscarriage of the letter sent him.

(Copy.)

Mr. E. S. Barry, Manager, National Guard, Hawaii, Baseball Team.

Sir: I see by the evening papers of Honolulu that you are going to play the National Guard team against the Marines to test its strength and get a line on what it will do against the United Fleet.

If you are desirous of finding out its strength and weakness, would suggest that you bring it up here and you can find out for a certainty. Yours truly,

JAMES S. MOORHEAD, Manager, "Outlaws."

High School Race This Afternoon

This afternoon at half-past four o'clock, the High School annual three-mile road race will be started, and in it three teams of three men each will compete against each other. The course to be covered is from the Aquarium, along Kalaniana'olani avenue to King street, and down that thoroughfare to Thomas Square, the race ending in front of the High School.

The following teams will take part in the race: Seniors—Barnhart, Low and Rice. Juniors—McCauley, H. Brown and H. Chillingworth. Freshmen—Cottrell, Bush and Roberts.

There are some very speedy men in the bunch, and it will be a great struggle from start to finish. The class that gets two out of their three men into first, second and third place will be declared the winner.

Dr. Hand will act as starter in the race, and quite a number of people will follow the race in hacks and automobiles. The race was instituted by Mr. Blanchard and is a good preparation for the events of the coming season.

Wren Race For Healan Cup

Next Sunday the race for the Healan Cup will be sailed for by the wrens, and as all of those small boats have been entered for the event, there will be a fine race for sure.

All the boats are the same size, and the sail area is also identical in them all. The Galloping Mary, Roaring Glimet, Dancing Sally, Wilder's boat and Howard Bowen's craft, which is to be launched today, are entered.

The course will all be in the harbor, and the boats can be seen during the whole time from start to finish. The spectators who visit the Healan boat shed will have a fine view of the proceedings, and there is no doubt that a big crowd of sailing enthusiasts will attend on Sunday morning.

The race will start at 11 o'clock, and there will be a two-gun start, with two minutes interval. The course and instructions will be delivered in writing to all the skippers on Sunday morning.

The beautiful silver cup which has been donated by the Healan Boat Club will go to the winner of the race, and the fortunate man will have a trophy that he will be proud to show the rest of his life.

The Outrigger Juniors are to have a benefit all to themselves soon, as Honale has promised them that he will give a show the proceeds of which are to be devoted to paying off the debt on the new bathhouse, which will be completed about Saturday next.

Motorcyclists Are Going To Speed

All the motorcycle men are looking forward to the race meeting which it is proposed to pull off in the near future. Bill Chilton is determined to beat some of the existing records—that is, Hawaiian figures. There is no chance of world's records going by the board, as we have no banked tracks.

Berger, the daredevil rider, and Herriek, the win or breakneck man, will be out on the warpath soon, and then there will be some good racing done.

The hill-climbing contest is also attracting a lot of attention, and when the machines face the hill on Kapiolani street, there will be some buzzing and noise heard.

The world's record for one mile is 42 5-8 seconds. That is going none for sure, but even that figure will be cut down on the new Motordrome that is being built on the mainland. The track on that concern will be banked to an angle of 35 degrees, and when the motorcycles fly around it they will appear to be defying the laws of gravitation.

Something of the sort was seen here years ago, when men on bicycles rode around a birdcage style of track that they could not possibly go slow on.

NEWS NOTES FROM KAMEHAMEHA SCHOOLS

There will be a soccer game played on the school grounds Saturday afternoon at 2:30 o'clock, between the Kame and High School teams. The Kame lineup will be about the same as last Monday.

Captain John Hal of the soccer team has been laid up since Tuesday with a bad cold. He expects to be all right to play in the game this Saturday.

The track boys will start in training for their interclass meet, which will be held at the school on February 18. The fourth and fifth grade members are out for the first honors. Many of the runners of both teams are laid up with bad colds.

The cadets are going through close-order drills and manual of arms during their drill hours. Captain Winters is getting the battalion in good shape for their exhibition to be held on February 1 at Alexander Field.

The Kamehameha Glee Club will sing at the Kaili Settlement Saturday evening.

Since the cold weather arrived, it has affected many of the school athletes. Many of them are having bad colds, and the nurse is kept pretty busy.

Mr. Horne, president of the schools, will complete his trip around the island of Hawaii Saturday morning, February 5.

Mr. U. Thompson is in charge of the manual school while Mr. Horne is away, and he is kept very busy.

SHORT SPORTS.

That popular and clever sporting writer "Jack Densham" hardly comes under the heading of "Short Sports," as the genial John is a fairly long sport, but still he is such a good, all-round man, and has done such boasting of sports in this city, that everyone who knows him is sorry to think that he is leaving Hawaii net.

Densham, besides writing of sports, has taken a very active part in getting events arranged, and has never spared himself in any way when any effort of his could assist clean sports. Aloha, Jack, and may you for a while—for, of course, you'll return—have a good time in your new sphere of life.

PACIFIC AND UNIVERSITY CLUB WILL ENTERTAIN

One of the principal functions during the stay of the cruiser fleet in port will be the ball to be given jointly by the members of the Pacific Club and the University Club in honor of the officers of the visiting fleet.

The date set is Friday evening, February 4, in the pavilions of the Young Hotel. This will doubtless be a very elaborate affair, representing the efforts of the leading clubs of the city.
